400 Seventh Street, SW
Washington, DC 20590

Docket No. FAA-2000-8431 - 8

Dear DOT:

In my review of proposed revisions to FAA's drug and alcohol testing regulations, I submit the following comments and suggestions for your consideration:

1. Appendix I (V)(G)(4) states that the SAP may terminate the requirement for follow-up testing at any time after the first six tests have been conducted. Part 40.307(f) states, however, that the SAP may terminate follow-up tests at any time after the first year of testing. These are two different things when a SAP requires more than six tests in the first year. To eliminate the chance that SAPs will be confused by the different wording, I suggest this be changed to what is stated in revised Part 40.
2. Appendix J (III)(F)(4) Same as #1.

Thank you.

Sincerely,

Lee Mauk
Consultant
